

REMARKS

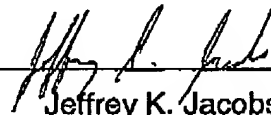

Claims 2-4, 7, 10, 11, 15, 16 and 21-22 are regarded as allowable if properly rewritten. Claims 1, 8, 9, 14, 18 and 19 stand rejected under 35 U.S.C. § 103(a) as being unpatentable over Rosen (U.S. Patent Application Publication Number 20040171400) in view of Ericsson (U.S. Patent Number 6,223,047); claims 5, 12 and 17 stand rejected under 35 U.S.C. § 103(a) as being unpatentable over Rosen in view of Ericsson and Diachina (U.S. Patent Number 5,655,215); claims 6 and 13 stand rejected under 35 U.S.C. § 103(a) as being unpatentable over Rosen in view of Ericsson, Diachina, and Newton; and claim 20 stands rejected under 35 U.S.C. § 103(a) as being unpatentable over Rosen in view of Ericsson and Grille.

The applicants respectfully disagree with the Examiner's rejections set forth in the present office action. However, desiring to expedite the issuance of a patent for the present invention and in view of the Examiner's indications of amendments that would confer allowance, the applicants have amended the claims in accordance with the Examiner's suggestions. In particular, claims 2, 7, 10, 15, 21 and 22 have been rewritten as independent claims. No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record and in condition for allowance. Therefore, allowance of this case is earnestly solicited.

The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. **502117 -- Motorola, Inc.**

Respectfully submitted,
V. Oprescu-Surcobe et al.
